choose conservatory roof style, identify right or left handing for L&P shapes then identify facet A,B,C etc then draw faces in splayed form:

**example: victorian** 'show all projectory sizes if applicable in addition to width & projection'.

**Key:**

=top-hung opener, </>=side-hung opener (point is hinge side)

o/o=door open outwards, o/=door open inwards, **PD**=patio doors, **BD**=bi-fold doors

where apitched roof interfaces with a wall and requires a box-gutter, please mark **BG** on the facet side as appropriate

for assistance with facet, width, projection sizes and balance calculations. please check the technical section at [www.diywindows.com](http://www.diywindows.com)

**PLEASE POST TO ADDRESS BELOW ONCE COMPLETED**
